

# Brief Interview with Dr. Ahmed El-Hashash

## Anatomy & Physiology: Current Research

**1. How many years have you been associated with the current research?**

17 years.

**2. What is the research topic you are working on now?**

Stem Cell and Regenerative Medicine.

**3. What makes an article top quality?**

Strong data and novel subject.

**4. What are the qualities you look for in an article?**

Strong data and novel subject.

**5. Do you have any research funding (NIH or other national funding) now?**

Yes two Research Grants.

**6. When did you become an editor of OMICS Journal?**

2011.

**7. What is your greatest career accomplishment?**

Discovery of the importance and mechanisms of action of several enzymes and genes in lung stem cell behavior and fate.

**8. How does the research published percolate through to practitioners?**

By direct discussion in meetings or conferences.

**9. What is the purpose of serving as an editor?**

To serve the scientific community, share ideas and support others for their publications.

**10. Do you have any patents?**

No.

**11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?**

Yes.

**12. Do you plan to contribute any editorials or papers to OMICS Journals in the near future?**

Yes.

**13. Do you have any trouble with OMICS Journals in the past?**

No.

**14. Would you recommend OMICS Group to your friends or colleagues?**

Yes.

**15. How do you differentiate Anatomy & Physiology: Current Research with other journals in the field?**

Fast revision and publication.
