

## International Conference on Medical and Health Sciences

Rose Constantino

University of Pittsburgh, USA

The post report of **International Conference on Medical and Health Science** captures a two-day programme of presentations, panel discussions and shared dialogue at the conference on leading the way in Medical and Health Science, which took place from **24-25 February 2020** in **Rome, Italy**.

The event brought together doctors, physicians, professors, chief officials, entrepreneurs, researchers and also provided a treasurable networking opportunity and set the stage for more cooperation among doctors in Europe and beyond, including countries at different stages of development.

Medical Science 2020 began with opening remarks of the conference host and continued with a set of keynote presentations of real world cases describing new and remarkable initiatives by the following distinguished keynote speakers:

- Rose Constantino, University of Pittsburgh, USA
- Felix Cantarovich, Catholic University Argentine, France
- Edith Filaire, Greentech Group, France
- Luis Ayala, Fakih Medical Centre, UAE

A series of stimulating speeches to create skills in and advance awareness of requirements health and medicine was of particular interest to industry and academia. Chaired by **Dr. Edith Filaire, Genentech Group, France**, the speakers addressed topics ranging from public health, pediatrics, dentistry, oncology, neurology, and internal medicine as well as taking a look into an ambiguous future through the senses of a futurologist.

Based on the theme “*Comprehensive Forum for Furtherance of Health and Medicine*” the conference program addressed leading approaches and provided an opportunity to discuss and challenge some up-to-date practices.

Many participants have contributed in so many ways to turn this event into a smoothly running meeting with very interesting presentations and posters and a very good atmosphere for intensive networking.

We would like to thank all the attendees, mediapartners for all their great scientific input and for many fruitful discussions and scientific interaction. And it is reasonable to conclude that the conference was a great success!
