Plant Science and Natural Products Research 2020 will be held in London, UK from March 19-20, 2020.

Research in the field of [Plant sciences](#) contribute directly to world's economy and development. The results of this research are associated to many regions like agriculture, forestry, horticulture, and urban planning. Plants were always important subjects from the earliest study of life processes, and they were central to scientific study in the nineteenth and early twentieth centuries. Research on plants enhances our rational life and boosts our knowledge about other life processes. The results of research on plant science also tell us how to approach problems in agriculture, health, and the environment.

By the successful completion of series conference in the field of Plant Science, we are glad to include another international conference in the series. The conference is tilted as "Emerging Trends in Plant Science and Natural Products Research" the conference will be held on **March 19-20, 2020 at London, UK**.

The special moment added in the conference is award distribution. The award is to encourage the speakers, participants, Keynote speaker; Young scientist people etc., there are several categories are introducing to provide the awards.
