

6th International Conference on

Clinical and Experimental Dermatology

May 04-06, 2016 Chicago, USA

**Srdjan Prodanovich**

EZDERM, LLC, USA

Digital pathology

Pathology plays an essential role in healthcare. While still relying on glass slide microscopy and paper reports, digitalization of modern healthcare calls for a better delivery method of pathology results. Digital pathology can significantly improve patient care outcomes by allowing instant access of pathology images to multiple members of the patient care team.

Biography

Srdjan Prodanovich, MD, FAAD has completed his medical school and dermatology residency at the University of Miami School of Medicine in Miami, Florida. He is actively practicing Dermatology in Naples, Florida and is a CEO of EZDERM, LLC (ezderm.com), a premier software company that develops state of the art medical record systems.
