Living a successful life with low vision

Kevin McNally

Lions Low Vision Centers of Connecticut Board of Directors, USA

Life is a challenge even without having a rare degenerative retinal disease. As a legally blind musician, lawyer, traveler, communicator, and much, much more, who is contagiously upbeat and happy, I am thrilled to bring my passion for life to you. Vision loss can be a blessing. Let me explain why. My mission is to shine a light on the everyday challenges, misunderstandings and opportunities brought about by vision loss. With my help, let us learn to “Navigate vision loss, one step at a time”.
