

10<sup>th</sup> International Conference on

# Clinical & Experimental Ophthalmology

November 21-23, 2016 Dubai, UAE

## Ashraf Armia Balamoun

Al Watany Eye Hospital, Egypt

### Safe land with small pupils

- Different types of pupillary dilator devices.
- Videos representing cases with the devices.
- How to manage these cases intra operatively.
- Post operative pictures about these cases.
- 3 video cases.

### Aim of the presentation:

- Good size capsulorhexis to decrease incidence of post-operative capsular phimosis.
- Always do closure of all openings to prevent post-operative hypotony.
- Always use one piece hydrophobic acrylic IOL to prevent operative inflammation and PCO.
- Maintain pupil dilatation post-operative to decrease posterior synechiae.
