

International Conference on Flu

June 08-10, 2015 Chicago, USA

Joshua DiNapoli

Sanofi Pasteur Biologics LLC, USA

Universal influenza vaccines: Prevention of infection by matched and mismatched strains

Biography

Joshua DiNapoli received his PhD in Microbiology and Immunology in the lab of Dr. Robert C. Rose at the University of Rochester School of Medicine and Dentistry in 2005. He went on to perform his post-doctoral work in the lab of Dr. Peter L. Collins at the National Institute of Allergy and Infectious Diseases from 2005 to 2010. He has since been with Sanofi Pasteur, where his current roles are Deputy Director of Viral Immunology and Research Lead for the Universal Flu Vaccine program.
