

# PHARMACOVIGILANCE AND CLINICAL TRIALS SUMMIT

March 28-29, 2019 Osaka, Japan

## Pharma-safe medication safety best practice standards in community pharmacy

**Abeer Muhanna**

Saudi Patient Safety Center, Saudi Arabia

Pharma-safe medication safety best practice standards in community pharmacy is one of Saudi patient safety centers' strategies to reduce medication related harm across the kingdom. The community pharmacy best practice standards mission is to raise the level of community pharmacy-delivered patient care services across the kingdom and transfer the community pharmacy concept from point of sale to point of care. The presentation will outline the program objectives, milestones and standards and impact of the program on medication safety.

### Biography
