### **Success is all about relationships**

Using 30 years of small business and clinical dentistry experience, Larry Stanleigh will use storytelling, humor and real life examples to discuss how success is all about relationships. In the next hour we will define what success is, note that how we respond, especially to stress, is defined by our child and teen experiences, learn how it is not what you say but how you say it that you must know what to say, and not just say what you know, customize what you say and how you say it by knowing who you are talking to (Insights into Communication). Knowing who you are talking to allows you to develop a relationship with them and that relationship will lead to your success...Because Success is All about Relationships. Woven into this Keynote talk is a second set of stories to illustrate how the people in our lives are a gift. The program will end with a one page downloadable handout that will help you retain and apply the principles taught in the keynote lecture.
