

# 18<sup>th</sup> Asia-Pacific Dental and Oral Care Congress

November 21-23, 2016 Melbourne, Australia

## Deepan Duraisamy

Clear Braces Centre, Australia

### Emotional dentistry and a little bit about digitally designed smiles

The topic is an insight into the emotional side of dentistry that is very important for achieving success in big case conversions of full-smile makeovers and other cosmetic dentistry. It also touches base on Digital Smile Design and its role in patient consults and predictable smile design and delivery with a "WoW"

### Biography

Deepan Duraisamy is a renowned Cosmetic Dentist in Melbourne, Australia. He opened his own practice in early 2016 to refine and perfect his interest in facial aesthetics, Holistic Smile Design and Smile Correction. Arguably one of the most well-informed Cosmetic Dentists in Australia, he was one of the four dentists in Australia to pass The World's Apex Body of Cosmetic Dentistry (American Academy of Cosmetic Dentistry's) Accreditation written exam. His boutique studio in Melbourne fortifies the most advanced technology, luxury and contemporary style to create, alter and enhance personalized smiles. He has created this HSD framework for the future of cosmetic dentistry to attain the best smile possible and establish facial harmony. He artfully sculpts a new smile with porcelain veneers and other aspects of modern cosmetic dentistry after scientifically assessing the symmetries and asymmetric of one's face. His Holistic Smile Design approach involves complete smile makeovers with the help of correction, cosmetic orthodontics, Invisalign and implants as well as the aid of cutting edge technology and digital dentistry. He values and applies his knowledge and adapted views that cosmetic dentistry is not only about creating a beautiful smile but also an amalgamation of prosthodontics, orthodontics, periodontics, implant and facial aesthetics.
