

3rd International Summit on **GMP, GCP & Quality Control** September 25-26, 2014 Valencia Convention Centre, Spain

Quality excellence through benchmarking quality improvement models

Kamran Atif

Arwan Pharmaceuticals Industries, Lebanon

The aim of this study is to evaluate Quality Excellence for GMP Compliance at Pharmaceuticals that can be achieved easily through integration of various GMP requirements integration (ICH Pharmaceutical Development-Q8, Quality Risk Management-Q9 & Pharmaceutical Quality System-Q10) with quality improvement models that includes Malcolm Balridge National Quality Awards in United States of America, European Quality Award Model, Deming Prize in Japan, Six Sigma & ISO 9001 (Quality Management System). Pursuing to these models & its outcomes in the organization across the globe for improving quality, productivity & optimization of operations. Role of quality models & cGMP is considered as foundation of quality culture in Pharmaceuticals and reflect robust Quality Management System.

These models and GMP principles of various regulatory authority has impressive results in organizations with stable research work over past few decades & focus also included patient safety, drug quality, leadership, team work, supplier development, management reviews & customer focus.
