## **Quantum technologies and therapies, our response to the challenges of the current sanitary crisis**

**Jacqueline jacques**  
 BioQuantique SARL, Switzerland

**M**ost of the population is troubled by the ongoing health crisis that is affecting the world today. The economic and social disruption caused by the pandemic is devastating. It has led to a dramatic loss of human life worldwide and presents an unprecedented challenge to public health, community living and corporate world.

Much has been said/written on the subject and yet nothing seems to solve the problem. Despite the multiples actions of the governments, turbulence is still being seen and predicted, which create a stressful environment for everybody and mainly the most vulnerable. Is it a dead-end issue? Absolutely not! It is our understanding that there are still avenues that have not been fully explored to PREVENT the disease and to manage the STRESS that causes and aggravates the disease and adds additional burdens on the individuals ..... The world desperately needs a PREDICTIVE, PREVENTIVE and PERSONALIZED health approach to deal with this condition. We believe that QUEX Quantum Technology is a solution that is worth considering today.

Quantum Technologies based on Quantum Physics, Biofeedback and Bioresonance allow to question the body about its most acute and chronic imbalances and to correct the stress factors with targeted energy therapies.

The fundamental principle of the Bioresonance and Biofeedback therapies is that electromagnetic frequencies (micro-currents) can be used to restore the body's electrical and biochemical functions to restore tissue integrity and help the body to regulate and heal itself!

Our understanding is that this Corona virus (and its variant)

is a "stressor" that causes perturbations in the whole body mainly the immunity system, the respiratory system, the sensory system, the brain, the circulation etc., resulting in many unpleasant and serious symptoms.

The micro-current therapies used in QUEX Technologies are holistic, personalized, effective, safe, painless, drug-free, without side effects, in harmony with the environment, and scientifically proven. They should be part of the therapeutic "tool kit" of all health professionals to reinforce, with a personalized approach, the defense system of the body in all phases of the virus attack (before – during – after), reducing the risks of infection for the citizens and accelerating the recovery process.

Quantum Medicine opens the doors to a new approach to addressing the challenges of the corona disease ! Join us for this presentation where will demonstrated the benefits of using the QUEX Quantum Technologies to address the challenges of viral infections such as the coronavirus.

### **Biography**

Jacqueline jacques has more than 30 years of experience as a Manager, Management Consultant, and Coach mainly in Canada, USA, France Hong Kong and UK. She trained from experts and teachers in Personal Development and Alternative Medicine in Europe, America and Asia. She is a Lecturer, Seminar leader, Coach and Quantum Biofeedback and Bioresonance Expert promoting Quantum Technologies and Therapies and training and coaching practitioners in their understanding and practice of this new approach to health and wellness. She is the founder of BioQuantique SARL (Geneva) and a Founding Member of the European Federation of Natural and Complementary Medicines..
