The role of pummaria indica and ajuga bracteosa in the treatment of scabies

Dr. Said Hussain Shah

MD kabal homeopathic clinic kabal swat, Pakistan

The objective of the Research paper is to identify the treatment of Scabies in homeopathic. The research Project is experimental and descriptive. The population in the research is the patients of scabies. The researcher selected twenty patients of scabies in Tehsil Kabal of district Swat as a sample. The sample was kept under controlled observation. Primary and secondary data was collected about the scabies and its treatment. Different medicines were prescribed to a group of the sample consisting of 10 patients. The second group consisting of 10 patients of the sample was prescribed the mixture of PUMMARIA INDICA and AJUGA BRACTEOSA Both the groups were interviewed and observed by the researcher. The research finds out that the mixture of PUMMARIA INDICA and AJUGA BRACTEOSA is more effective treatment of scabies than the treatment prescribed by the previous research works.
