

Tinnitus in geriatric a worrisome but manageable problem my experience

Sambhaji Chintale

Cosmo ENT Hospital and Research Center, India

Tinnitus is very common presenting symptoms in old age , we experiences lots of cases of tinnitus in older age group there are different cause to it, but we have to evaluate it in systemic way here we are giving our experience of 50 cases of geriatrics with tinnitus We managed with all our possible treatment and few with counseling . It's very troublesome problem in geriatrics people one must keep focused approach towards tinnitus and give proper treatment to the patient for their healthy life style in this age group of 60yr and more age groups.
