

Global Summit on **VACCINES AND IMMUNOLOGY**

April 19, 2022 | Webinar

**To create awareness & address misconception regarding Vaccination utilization, highlighting the role of Vaccine in the development of immune in human.****Kaleem Ullah Khan***University of Peshawar KPK, Pakistan.*

**Expertise:** Vaccination & management, Social Mobilization, removal of community misconception, presentation & Supervision of vaccination staff, Data management, interaction with Provincial & district administration and security staff for smooth execution of vaccination activities. I am working in suspicious population-at risk my own life, specially my area near with Afghanistan border and mobile population areas, so due this there are multiple issues in this area. Recently police men and polio teams' member have killed in my area including one female team member. Except this thousand teams member have killed in this program two murder attempts also on me, but still I am working for polio free Pakistan and to eradicate polio. I have dedicated my life for the eradication of this virus from my country this fight of living in this sensitive and unpredictable environment. So for I have change so many families concept regarding vaccination, with the help of Community elders, Religious leaders, local influencers, and my personal dedicating efforts.

**Biography**

I have done my MS degree from Peshawar University, Pakistan. I have covered & remarkably decreased thousands of Refusals families and immunize their children and families in different communities and have created awareness and demand of vaccine and 98.5% vaccination coverage in my area, Keeping in view my services to this program are not only local but also international media including print as well as electronic media highlighted my achievement in this regards ie. Wall Street Journal, AFP, New York Time, The Guardian, The Reuters, India Today, Swiss Info, Arab News, Gulf News, TT Sweden News agency etc., NHK, BBC, VOA etc.
