

Brief Interview with Dr. AE Aboulata (Editor)

Journal of Virology & Mycology

1. How many years have you been practicing and/or performing research?

Oh, I've been working research for years. Its more than 42 years

2. What is the research topic you are working on now?

I'm working on Phytovirology: Diagnostics, Plant-Based Vaccines, Epidemiology and reviewing for different scientific journals

3. What makes an article top quality?

There are too many factors:

Editing in good quality

Figures are in good quality and simple to be understood

Tables are simple and easy to be understood

Recent and advanced technology is searched

Publishing in high IF-based journal

If the text is pure science it has to be very clear in idea and represented in simple way

If applicable or R&D research it has to be pure science-based ideas

4. What are the qualities you look for in an article?

Too different qualities:

The idea of the article represented in the title

The Abstract, Is it covering enough the article idea

The journal that publish the article, It should be known and have high IF

Recent references

The discussion part is expressing the idea and getting all parts connected

5. Do you have any research funding (NIH or other national funding) now?

No

6. When did you become an editor of OMICS Journal?

Few years ago

7. What is your greatest career accomplishment?

I'm Prof. since 17 years past in the domain of virology

8. How does the research published percolate through to practitioners?

Original research papers or review articles can be published after having sharing agreement with co-authorship.

9. What is the purpose of serving as an editor?

Serving as editors is helping to collecting big experience in different topics of the domain or even different domains

10. Do you have any patents?

No up to now

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

As editor and or reviewer yes

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes, I'm planning to

13. Do you have any trouble with OMICS Journals in the past?

No

14. Would you recommend OMICS to your friends or colleagues?

Yes, after having IF

15. How do you differentiate Journal of Virology and Mycology with other journals in the field?

Good one
