

# **Brief Interview with Dr. Ambarish Nag (Editor)**

## **Journal of Physical Chemistry & Biophysics**

**1. How many years have you been practicing and/or performing research?**

14 years.

**2. What is the research topic you are working on now?**

Computational analysis and modeling applied to biofuel and other renewable energy research.

**3. What makes an article top quality?**

Innovation, originality and clarity.

**4. What are the qualities you look for in an article?**

Innovation, originality and clarity.

**5. Do you have any research funding (NIH or other national funding) now?**

I am funded by DOE; I am not a PI or co-PI.

**6. When did you become an editor of OMICS Journal?**

2012.

**7. What is your greatest career accomplishment?**

Working in a wide variety of research projects in the sector of renewable energy in a US national laboratory.

**9. What is the purpose of serving as an editor?**

Getting an overview of publications in my field of research.

**10. Do you have any patents?**

No.

**11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?**

Yes.

**12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?**

Not sure.

**13. Do you have any trouble with OMICS Journals in the past?**

No.

**14. Would you recommend OMICS to your friends or colleagues?**

Yes.

**15. How do you differentiate Journal of Physical Chemistry & Biophysics with other journals in the field?**

It has a fairly high acceptance rate compared to other journals in the field.
