

Brief interview with Dr. Hiroyasu Ueda (Editor)

Journal of Clinical & Experimental Cardiology

1. How many years have you been associated with the current research?

Approximately 15 years

2. What is the research topic you are working on now?

ECG analysis, coronary computed tomographic angiography (CCTA)

3. What are attributes for a quality article?

The reliability of the data, the novelty of the research

4. Do you have any research funding (NIH or other national funding) now?

No

5. When did you become an editor of OMICS Journal?

Three years ago

6. Where can the journal find the maximum scope in terms of niche?

I have no idea.

7. What is your greatest career accomplishment?

Nothing particular

8. How does the published scientific content assist the potential researchers?

The researchers read the articles that might help diagnose, prevent, and treat the disease.

9. What is the purpose of serving as an editor?

To support and promote the society

10. Do you have any patents?

No

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

I'm not going to plan.

13. How would you define your experience with OMICS Group?

I have no idea.

14. Your opinion on conducting Editorial Board meetings at related Conferences?

There is no opinion in particular.

15. Would you recommend OMICS to your friends or colleagues?

Yes, of course.

16. How do you differentiate Journal of Clinical & Experimental Cardiology with other journals in the field?

I have no idea.
