Brief Interview with Dr. Takhar Kasumov (Editor)

Journal of Chromatography & Separation Techniques

1. How many years have you been practicing and/or performing research?

26 years.

2. What is the research topic you are working on now?

Metabolomics and proteomics of HDL, HDL functionality.

3. What makes an article top quality?

High quality research and productive collaborations.

4. What are the qualities you look for in an article?

Sound methods and approach.

- Do you have any research funding (NIH or other national funding) now?
 Yes.
- 6. When did you become an editor of OMICS Journal?

3 years ago.

7. What is your greatest career accomplishment?

I have developed a global proteome dynamics method using heavy water and high resolution mass spectrometry. I applied this method to assess the HDL function in humans.

8. How does the research published percolate through to practitioners?

Through scientific meetings and publications.

9. What is the purpose of serving as an editor?

To facilitate and disseminate high quality research.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in

the past two years?

Yes.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next

year?

Yes.

13. Do you have any trouble with OMICS Journals in the past?

No.

14. Would you recommend OMICS to your friends or colleagues?

Yes.

15. How do you differentiate Journal of Chromatography & Separation Techniques with other journals in the field?

This is the specialized journal in advanced analytical techniques, specifically chromatography.
