

Brief interview with Dr. Wei Li

Translational Medicine

1. How many years have you been practicing and/or performing research?

10 years.

2. What is the research topic you are working on now?

EpiGenomics and Disease Profiling

3. What makes an article top quality?

Novel findings, well designed assays, nice presentation of the data

4. What are the qualities you look for in an article?

Novelty, solid data, good statistical analysis.

5. When did you become an editor of OMICS Journal?

In 2013

6. What is your greatest career accomplishment?

Published 12 peer-reviewed papers which have received more than 220 citations, including 5 first-author papers.

7. How does the research published percolate through to practitioners?

Opening a novel field, good methods, ideas, and nice hypothesis.

8. What is the purpose of serving as an editor?

To enjoy the science.

9. Do you have any patents?

CONTROL OF CARDIAC GROWTH, DIFFERENTIATION AND HYPERTROPHY, US

Patent #: USSN61721956, 02-NOV-2012 & International Patent#: PCT/US2013/067209

15-NOV-2013.

10. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

Not yet.

11. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes.

12. Do you have any trouble with OMICS Journals in the past?

No

13. Would you recommend OMICS to your friends or colleagues?

Yes, I would

14. How do you differentiate Translational Medicine with other journals in the field?

Translational Medicine is a high-profile journal specialized in translation of basic research.
