

# **Brief Interview with Dr. Wei Wei (Editor)**

## **Current Synthetic and Systems Biology**

**1. How many years have you been associated with the current research?**

More than 15 years.

**2. What is the research topic you are working on now?**

Biosafety of genetically modified and synthetic organisms.

**3. What are attributes for a quality article?**

Creative, and model for further study.

**4. Do you have any research funding (NIH or other national funding) now?**

Yes, from China NSF.

**5. When did you become an editor of OMICS Journal?**

Last year.

**6. Where can the journal find the maximum scope in terms of niche?**

Technology and biosafety.

**7. What is your greatest career accomplishment?**

Not sure.

**8. How does the published scientific content assist the potential researchers?**

Great assistance.

**9. What is the purpose of serving as an editor?**

Reviewing manuscripts and help to support the journal.

**10. Do you have any patents?**

No.

**11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?**

No.

**12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?**

Not sure.

**13. How would you define your experience with OMICS Group?**

Newly known to this group.

**14. Your opinion on conducting Editorial Board meetings at related Conferences?**

That is a good idea. Even can have a special journal issue at a certain conference.

**15. Would you recommend OMICS to your friends or colleagues?**

Sure.

**16. How do you differentiate Journal of Current Synthetic and Systems Biology, with other journals in the field?**

It is a new journal.
