

2nd World Summit on Neurology and Cognitive Neuroscience

Entario Sukhareva

[2nd World Congress on Neurology and Neuroscience](#), which will be held during October 12-30 2020 in Milan, Italy and will be organized around the theme of “**Exploring Contemporary Horizons in Neuro studies**”.

Neuroscience 2020 will be running with International experts from the field of Neurology and Neuroscience, International symposiums, B2B meetings, and workshops will be organized involved in discussion of the specific topics in the field of Neurology like Neuro Muscular Disorders, Clinical Neurophysiology, Neuro Infectious Diseases, Neurosurgery, Neuropathology, Paediatric Neurology, Neuro-oncology, Brain Tumor etc.

The aim of the conference is to identify and understand the mechanisms of human cognition. Neurogenetic Disorders are commonly observed among developed and developing countries. Neurogenetic conditions are generally chronic, long-term and incurable. [Dementia](#) is strongly linked with age where Netherlands and other European countries have increasingly ageing population. Currently 16% of the European population is over 65, with this figure expected to reach 25% by 2030. So, the Neuroscience 2020 conference provides a platform to all the participants to discuss Neurology concepts and bring awareness among people related to Neuro disorders.

Student Poster Competition and Young Research Forum are organized at Conference, to encourage students and recent graduates to present their original research that will be published later in the Conference Series LLC Journals. All the accepted abstracts will be presented at the poster sessions during the conference. Conference Series LLC provides an opportunity to present E-Poster for all the participants who cannot attend the conference with abstract published in the website with DOI number.

Business networking is a venue for vendors to have network and B2B meetings with “Top scientists and colleagues” and with an effective low cost marketing method for developing sales and opportunities and contacts, based on referrals and introductions either face-to-face at meetings and gatherings, or by other contact methods such as Telephone, E mail, Digital and Increasingly social and business networking websites.

Why to attend?

[Neuroscience 2020](#) will gather all the experts of Neuroscientists, Neurogeneticist, Clinicians, Neurologists, Medical practitioners, Psychiatrists, Care specialists, academic professionals and students all over the world to share an interest in the genetic pathways underlying neurological disorders, techniques to identify those genetic pathways, and the use of genetics and genomics as tools to develop therapeutics.

The main aim of the conference is to provide a platform to academicians and practitioners from multiple disciplines to debate and deliberate on social change that is encompassed by innovation and technology.

Highlights of the conference

[Neurology](#) | [Clinical Neurophysiology](#) | [Neurosurgery](#) | [Central Nervous System](#) | [Pediatric Neurology](#) | [Neuromuscular Disorders](#) | [Psychiatry and Psychology](#) | [Spine and Spinal Disorders](#) | [Neurogenetic and Neurometabolic Disorders](#) | [Neuropharmacology](#) | [Nursing and Neuroscience](#) | [Neuroimmunology](#) | [Neuroinfections](#) | [Brain Tumor and Neuro-oncology](#) | [Neuropathology](#) | [Neuroplasticity and Neurorehabilitation](#) | [Neurocardiology and Strokes](#)

Target audience

- Neurologists and Directors
- Physicians
- Neuroscientists
- Specialists
- Researchers
- Health care professionals
- Professors
- Industrial Experts
- Neurosurgeons
- Psychiatrist
- Nutritional Scientists
- Lecturers and Students from Academia
- Students from Academia in the research of Neurology

About city

Milan, a metropolis in Italy's northern Lombardy region, is a global capital of fashion and design. Home to the national stock exchange, it's a financial hub also known for its high-end restaurants and shops. The Gothic Duomo di Milano cathedral and the Santa Maria dell Grazie convent, housing Leonardo da Vinci's mural "The Last Supper," testify to centuries of art and culture.
