# Acknowledgement to Reviewers

I would like to give warmest thanks to the reviewers for evaluating manuscripts on behalf of the editors of International Journal of Advancements in Technology. The whole journal team deeply appreciates the contribution of reviewers for their valuable time and support in reviewing the assigned manuscripts, which is very helpful for revising and improving our journal, as well as the important guiding significance to our researches. International Journal of Advancements in Technology is, peer-reviewed, open access, online journal that leads the world in publishing peer-reviewed novel research, including original research, analyses, editorials, reviews and commentary on all fields of technology. The principal aim of International Journal of Advancements in Technology is to unite in one scientific journal of all reports in the field of technology research from numbers of different disciplines.

Reviewing is a careful work, requiring not only careful reading, analysis, and commentary but also a willingness to continue with a manuscript through multiple revisions. The Journal always appreciates the contribution of reviewer for their support towards successful publication of articles. The Journal has an Editorial tracking and submission system where reviewers can submit their comments either on the journal's unique email id or directly on the submission system. Also, they can access details of their past reviews and can download a letter of acknowledgment for their records. After successful completion of review of five manuscripts, by each reviewer, submitted to the Journal the reviewers are entitled to get an official reviewer certificate from the Editorial team. Feedback from reviewers shows that most see their task as voluntary and mostly unseen work in service to the scientific community.

Journal of Advancements in Technology is an international peer-reviewed journal and one of the famous journals in the field of Science technology. In 2010 first issue of the journal was published and since then it is growing continuously and publishing sufficient number of articles in each issues successfully with active support of the reviewers. The focus of this journal broadly covers: Virtual Reality Technology, Data Engineering, Bioinformatics Techniques, Manufacturing, Computer Networks, Simulation and Visualization Effects, Machine Vision, Product Modeling, Communication Systems, Bionics, Genomics, Architecture, Image Processing, Information Theory, Fluid Engineering, Tribology, Search Engine Design, Graphic designing, Animation, Gaming Technology, Cyber Technologies, Motion picture, Sensors.

This Journal is a quarterly journal and publishes article in English and every article is simply peer-reviewed and after acceptance is published online within 45 days. The journal appreciates the consistent support of reviewer board members who have provided peer-review of manuscript which were submitted to the Journal of Advancements in Technology. They receive no remuneration for their work and still took out time from their busy schedules to read and evaluated manuscripts submitted to the Journal. We, on the behalf of whole journal team thank them for their indispensable work.
