

Acknowledgment to the Authors and Reviewers: Journal of Bone Research

Emilia Jones*

Journal of Bone Research, Longdom Publishing, Avenue Roger Vandendriessche, 18, 1150 Brussels, Belgium

EDITORIAL

Regardless of anything else I express veritable appreciation to all authors and reviewers of the Journal of Bone Research (JMBR) in the interest for the entire publication board and the publisher. It was with the co-action, fervor, and soul of the authors and reviewers we could make JMBR an awesome accomplishment. Authors have been a certified motivation and key in setting up JMBR among outstanding amongst other journal for publication in the subject of Bone Research. I offer thanks toward them all in considering and confiding in JMBR as the stage for publishing their significant work. I also thank all authors for their mindful co-movement loosened up during the various periods of preparing of the articles in JMBR. For the accomplishment of any journal, reviewers are a central part and thusly they merit sincere appreciation. JMBR relies upon the undertakings and thoughtfulness of the reviewers on assessing the appropriateness of an article for publication. I might want to thank our peer reviewers who put aside the effort to submit extraordinary commitments to the Journal of Bone Research. The commitments of reviewers are customarily used in improving the idea of a submitted research articles. The assessment of a research article is uncommonly central to ensure the nature of the articles published in any journal. I thank all reviewers for their stunning responsibilities. We know how long and effort goes into creating a respectable review, and we significantly regard the commitment of

reviewers who volunteer their time and efforts to give fundamental info that ensures the excellent of papers published in each issue of the journal. I esteem our reviewers for taking the time and effort imperative to provide sharp guidance, and we endeavor to show our thankfulness to our reviewers. With the extending number of articles entries this year, your thoughtful surveys were essential to control the decision of unparalleled works for publication in Bone Research. The amazing responses from the authors and reviewers have been a certifiable motivation and moving in taking forward JMBR to the next year of its world. I'm bounteously fulfilled to bring before you the ninth volume of JMBR. Journal of Bone Research is an every other month issue release journal that has been attempting to surpass assumptions in publishing quality articles in the field of Bone and Joint Surgery, Calcified Tissue, Bone Marrow Transplantation, Clinical Orthopedics and Related Research, Arthritis, Arthroplasty, Arthrodesis, Fibromyalgia Symptoms, Joint Replacement, Juvenile Rheumatoid Arthritis, Knee Osteoarthritis, Knee Replacement, Osteoarthritis diet, and so on. Manuscripts coming under the extent of the journal are published within 3 weeks from their submission date. For any inquiries you can visit the "Instructions for Authors" tab on the journal homepage or you can connect with us via email. By and by, we might want to utilize this open way to thank you for the effort and inclination that you add to investigating, without which it is hard to keep up the elevated expectations of peerreviewed journals.
