### Editorial Note

Endocrinology & Metabolic Syndrome is an Open Access, rapid peer-reviewed journal that publishes in the areas related to the field of endocrine and endocrine system.

Endocrinology is a medical specialty that deals with the diagnosis and treatment of diseases related to functioning of hormones, particularly biochemical processes involved in the body. It mainly focuses on the endocrine organs, such as pituitary, thyroid, adrenals, ovaries, testes, pancreas, secretions called hormones, also its diseases and other syndromes.

It's all our pleasure to announce that during the year 2020, all issues of volume 9 were published online within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online and successfully stepped into volume 10. Beside of all these, our journal is planning to bring issue release in every month i.e., 12 issues in a year from 2021. The Impact factor of Endocrinology and Metabolic Syndrome for the previous year was 1.01, while Index Copernicus Value (ICV) is 84.15. Endocrinology and Metabolic Syndrome is indexed in major indexing databases like Index Copernicus, Publons, EBSCO, Worldcat, Google Scholar, Genamics Journalseek, Jamia Hamard University, Refseek, Sherpa Romeo, etc. During the calendar year 2020 our journal received number quality papers, which underwent preliminary screening for the plagiarism, after passing through preliminary screening and peer-review process, we published papers in 2020. The average peer-review process is 6-8 weeks from qualified eminent reviewers. Our review process can be tracked by the authors at any time

and can contact us through online portal system. Endocrinology and Metabolic Syndrome is releasing issues in the frequency of monthly from the year 2021. It is supporting related conferences which are on-going worldwide. Endocrinology and Metabolic Syndrome journal has a very huge and eminent editorial board members and team, who actively takes part in every step for the development of Journal. I take this opportunity to thank my Editorial Board members and reviewers who are actively taking part in editing for quality of articles to publish the papers. Thanks to their generous support towards the journal.
