

Announcement 2020 at 3rd World Congress on Nanomaterials May 08-09, 2020 | Prague, Czech Republic

Alexander M. Seifalian

Director & Professor of Nanotechnology & Regenerative Medicine NanoRegMed Ltd. E-mail: alex@nanoregmed.com

Maybe we want to thank all our great keynotes, speakers, participants gathering, understudies, affiliations, media accomplices and visitors for making Nanomaterials 2019 an effective and stunning opportunity.

Allied Academies organized a joint conference on 'Second International Conference on [Nanomaterials and Nanotechnology](#) and 22nd International Conference on [Advanced Nanoscience and Nanotechnology](#)' on 16-17 May 2019 at Panorama Hotel Prague, Milevská 7, 140 63 Praha 4, Czech Republic, Prague, Czech Republic with the theme 'A Spectrum of Nanomaterials Opportunities.' Supporting members of the Editorial Board received kindhearted reaction and dynamic investment

The gathering was set apart by the participation of youthful and splendid analysts, business delegates and capable understudy networks speaking to in excess of 18 nations, who have driven this occasion into the way of progress. The meeting featured through different sessions on ebb and flow retroviral investigate.

[Nanomaterials](#) 2019 saw an amalgamation of unmatched speakers who edified the group with their insight and confabulated on different novel subjects identified with the fields of Nanomaterials, Nanoscience, and Nanotechnology

The gathering was helped out through different sessions, in which the discourses were hung on the accompanying major logical tracks:

- Nanoparticles
- Biomaterials
- Nano Composites
- Nanomaterials

- Carbon Nanotubes
- Nano Biotechnology
- Polymer Nanoscience
- Advanced Nanomaterials
- Functional Nanomaterials
- Nanophysics
- Nano Electronics

The proceedings of the conference were conducted through various scientific sessions and lectures in the plenary. The conference was launched with an opening ceremony followed by a series of lectures given by Honorable Guests as well as keynote forum members. The adepts who with their exquisite talk promulgated the theme were

- Huijun Zhao (Griffith University Australia)
- Miriam Colombo (University of Milano-Bicocca Italy)
- Johan Alauzun (Charles Gerhardt Institute Montpellier France)
- Carlos Pagliosa (RHI Magnesita Brazil)
- Houzheng Wu (Loughborough University UK)
- Yaw-Kuen Li (National Chiao Tung University Taiwan)

The event enlightened various areas of [Nanomaterials and Nanotechnology](#) with Workshops and plenary lectures from the speakers of various universities and organizations like

- Kaitlyn Parsons (University of Illinois USA)
- Ivo Dlouhy Brno (University of Technology Czech Republic)
- Francesco Picchioni (University of Groningen The Netherlands)
- Hagay Shpaisman (Bar-Ilan University Israel)

- David Strawser (Technical Developments Israel)
- Fabio Vengoechea (Laboratorio Avimex SA de CV Mexico)
- Bianca Rita Pistillo (Luxembourg Institute of Science and Technology)
- Yongmei Zheng (Beihang University China)
- Houzheng (Wu Loughborough University UK)

We are also obliged by promoting active discussion forums for various delegate experts, company representatives and other eminent personalities who sponsored the meeting. We sincerely thank the leaders of the Organizing Committee for their generous participation, encouragement and help for [Nanomaterials](#) ' success in 2019.

With the grand success of [Nanomaterials](#) 2019, Allied Academies is proud to announce the "3rd [World Congress on Nanomaterials](#)" to be held during May 08-09, 2020 in Prague, Czech Republic.

Welcome back to the third [Word Congress on Nanomaterials](#) on May 8-9, 2020 at Prague, Czech Republic.

This year with the creative subject-" Exchange of Technological Advances in the field of Nanomaterials, "which intends to offers new musings, emotions, systems and techniques that genuinely impact the way where you cooperate and the organization which holds conspicuous specialists in the field of Nanomaterials.

[Nanomaterials](#) 2020 Conference is the phase of renowned specialists, researchers, school instructors, school examiners, and understudies, including addresses, locations, oral and production presentations, introductions and generously all the

more learning, share your Research association and get name affirmation and Certificates set apart by our noticeable world-class dealing with the warning gathering.

No other event will offer a logically vital summary of keynote speakers, quality partners and associating with substance. This is an engaging event for delegates from Universities and Institutes to connect with analysts.

Interested individuals can avow their collaboration by solidifying the social affair with their partners.

Prague is the capital and the biggest city in the [Czech Republic](#). Prague has been a political, social and monetary focal point of focal Europe complete with a rich history. Prague is a perfect area taking into account straightforward access to the encompassing territories.

We trust you go along with us and set aside little effort to appreciate the special appeal of the locale.

Regards

George William
