

Announcement: New Frontier's in Applied And Environmental Microbiology , New York, USA on April 24-25,2021

Reham Elkhoully

We are happy to announce the International Conference on [Applied and Environmental Microbiology](#) scheduled to be held in New York, USA on April 24-25, 2021.

The theme for the Applied Microbiology 2021 is "Explore More about Microbes and New Techniques Used in Applied Microbiology"

LONGDOM Conferences takes the honour to request all the participants - Speakers, Delegates, Scholars, Students, Sponsors, Exhibitors from all over the world to attend "New Frontiers in Applied and Environmental Microbiology" which is going to be held on April 24-25, 2021 in New York, USA. It will be organized under the theme "Know more about microbes and new techniques used in Applied microbiology" which covers wide range of significant sessions and the main goal of this conference is to provide a transformative specialised modification experience through informative keynote lectures, workshops, poster presentation, oral presentation, in the field of applied and environmental Microbiology.

We would like you to share, spread and convey your valuable thoughts to the global scientific event set to happen in New York, as we start to prepare the podium for a grand discussion.

[Applied Microbiology 2021](#), a two-day meet, aims to accumulate ardent minds ranging from frontiers to novices to discover, explore and create prospects to gain a greener, safer and cleaner tomorrow.

Our [Applied Microbiology 2021](#) conference 2020 focuses to create a medium to connect eminent personalities from different backgrounds of Applied Microbiology 2020 including Applied Microbiology, Infectious Disease, Immunology, Molecular Biology, Food Microbiology and so on. This not only helps to spark new research ideologies but also craft a network of high profile and skilled people to protect the future.

The [Applied Microbiology 2021](#) conference expects to compile 150+ participants mainly from Applied and Environmental Microbiology Associations, Research Scientists, Applied Microbiology, Applied and Environmental Microbiology Researchers, Business Entrepreneurs,

Environmental Academia, Ecologists, Green Energy Training Institutes, Chemical Engineers, Environmental Engineers, Waste Management Associations, and Chemical Industries.

The scientific contributions towards our New [York Applied Microbiology 2021](#) conference are welcome in the form of oral, video, poster presentations/workshops and seminars/networking sessions/exhibits. These tracks are designed to reveal and augment the expertise of the attendees. We truly believe Applied Microbiology 2021 conference to attain greater heights and success.

[Applied Microbiology 2021](#) welcomes all the professionals, professors, students, research and environmental enthusiasts, business delegates to venture into complete Applied Microbiology 2021 experience at New York, USA on April 24-25, 2021.

GET READY FOR Applied Microbiology 2020!
