

Editorial Notes

Joseph Alfered*

Managing Editor, Epigenetics Research: Open Access, Belgium

ANNOUNCEMENT TO AUTHORS AND EDITORS

I would like to thank all the authors and reviewers from Epigenetics Research: Open Access in the interests of the entire board of directors and editors. With all of your cooperation, enthusiasm and soul of the authors and reviewers, we were able to make EROA a real and important source of inspiration in order to make EROA one of the leading journals on the subject of epigenetics research. I thank all of them for considering and trusting EROA as the venue for the publication of their important work. I would also like to thank all authors for their joint commitment during the various phases of editing the articles in EROA.

For the achievement of any journal, reviewers are a fundamental part and subsequently they merit earnest appreciation. EROA depends on the endeavors and helping nature of the reviewers on evaluating the propriety of an article for publication in EROA. I might want to thank our peer-reviewers who set aside the effort to submit great contributions to Journal Epigenetics Research. The contributions of reviewers are often utilized in improving the nature of a submitted manuscript. The evaluating of a manuscript is exceptionally fundamental to guarantee the quality of the article published in any journal. I thank all reviewers for their amazing commitments.

We know how much time and exertion goes into composing a decent review, and we profoundly esteem the contribution of reviewers who volunteer their time and mastery to give basic input that guarantees the high caliber of research published in issue of

the journal. I value our reviewers for taking the time and exertion important to give keen direction, and we attempt to show our gratefulness to our reviewers.

With the expanding number of manuscript entries this year, your convenient surveys were important to control the choice of unrivalled works for publication in Journal of Epigenetics Research. The overwhelming reactions from the authors and reviewers have been a genuine inspiration in taking forward EROA to the following year of its reality. We hope this will continue even in the future.

I am abundantly satisfied to bring before you the second volume of Epigenetics Research: Open Access which is a bimonthly issue release journal that has been endeavoring to exceed expectations in publishing quality articles in the field of Epigenetics, Epigenetic modifications, Neuroepigenetics Cancer epigenetics, Chromatin remodeling, DNA methylation, Nucleosome modification, Gene silencing, Epigenetic therapy, and their role in diseases like, Diabetes Mellitus, Schizophrenia, Atherosclerosis, Autism Spectrum Disorder, Depression, Muscular Dystrophy, Cystic Fibrosis, and more. Manuscripts coming under the scope of Epigenetics Research are published within 3 weeks from their date of submission. For any questions you can visit the "Instructions for Authors" tab on the journal homepage or you can get in touch with us by means of email.

Once again, we would like to use this open door to thank you for the exertion and aptitude that you add to exploring, without which it is difficult to maintain the high standards of peer-reviewed journals.
