

## 2020 Awards for 3rd Global congress on Antibiotics and AMR

### Farid Mena

We Allied Academies, having the great pleasure to announce the awards for our conference Antibiotics 2020. Held as a part of the Antibiotics 2020 Conference, this award ceremony is given as an opportunity to meet the inspiring Speakers and researchers of the Antibiotics and Antimicrobial Resistance research, pharmaceutical Industry, Drug manufacturing companies to listen to their inspiring lectures of research and developments.

The awards are presented to the individuals to recognize their continued hard work in bringing the future of drugs to treat many diseases. The objective of Antibiotics 2020 Awards is to honor brilliance and acknowledge the innovation, hard work and accomplishment of Antibiotics researches and products with an Award, Memento and Certificates.

Our Antibiotics 2020 Conference organizes many interesting sessions for the attendees to give their talk and they are, Keynote presentations, Plenary presentations, Poster presentations, Young Researcher presentations and also Video Presentations. And the presentation awards are offered to admit the individual's capability for making excellent contributions to the field and for the active commitment towards the improvement of this field. This concept shall inspire all the applicants to achieve more which will, in turn, support the investigation networks and could lead towards a policy execution in development for a productive tomorrow.

The awards endeavour in provides a strong specialised growth opportunity for all researchers at various levels of their livelihoods. Moreover our conferences will deliver a much needed time and space for all to relate with colleagues from different parts of the world and to generate long lasting networks, contacts and relations.

The Antibiotics 2020 Awards is established with the intent of valuing one's contribution to the field and after the idea of supporting and encouraging for more effective participation for the betterment of the industry as a whole. This concept shall encourage all the participants to accomplish more which will, in turn, promote the research networks and could lead towards a policy execution in fostering for a productive tomorrow. Considering the Scores given by the assessment committee and the Meeting

Chair, the maximum scoring presentations shall be suggested for the following awards.

The Best Plenary Award

The Best YRF Presentation Award

The Best Poster Award

And considering the roles and responsibilities offered by our corresponding Organizing committee members, we take the huge pleasure in announcing the following awards also,

The Best OCM Award

The Best Keynote Award

### The Best OCM Award

The Organizing Committee is the chief of our Antibiotics 2020 conference, With their support and contribution, we have organized such an esteemed event. So now it is our great privilege to honor them for their efforts they have contributed to the conference on the whole.

### Best Keynote Award

The keynote lecture that has been considered to be the best in the keynote session is awarded the Best keynote Speaker Award. Antibiotics 2020 Conference has a pleasure in respecting the prominent research professionals for their exceptional research works in these fields and provide us with many ideas to build the disease-free environment.

### Best Plenary Award

This Award is offered for excellent lecture considering every presenter of the meeting, which is the most stimulating, efficient and skilled and is delivered through an impactful, influential and engaging speaker. Based on the scores offered by the Session Chair and Co-Chair for every presentation and Committee member's reading of the papers, the Scientific committee decides which lecture will collect the Best plenary Award.

### Best YRF Presentation Award

To recognize the outstanding effort by student participants, the Best YRF Presentation award will be offered for an exceptional presentation of the Antibiotics 2020 conference, and the award winner must be enrolled as a

post-graduate student. The award is recommended based upon an absolute standard of brilliance and all student presenters will be counted eligible for this award. But based on the scores provided by the evaluation committee for every presentation of student presenters of the conference, the Conference Chair determines which presentation will collect the Best YRF Presentation Award.

### **Best Poster Presentation Award**

To distinguish the best poster presentation from the poster session, The Antibiotics 2020 conference organizing committee has assigned meeting chair to assess the poster session, The Chair determines which poster presentation will obtain the Best Poster Presentation Award.

The outcome lies with the Session Chair, Evaluation panel and the Conference Chair. The evaluation panel encompasses persons with a sound academic or/and industrial background in the specific subject area.

There are a few advancements during the decade that have been significant patterns in distribution. The quick increment in the accessibility and speed of the Internet and portable interchanges has been a significant supporter of quick distribution. Access has now ventured into huge numbers of the remotest pieces of the world to interface with more analysts. We advance our writers work through standard tweets on twitter, Facebook and LinkedIn. We thank the entirety of our creators, article board individuals, analysts, and staff who have made the previous decade fruitful for the diary. In the following decade, we focus to enhance the quality and realness of the information distributed in our journal. We long for quality papers that address general wellbeing needs and are written in English to a worldwide norm. Papers that are of a high logical and moral norm with fitting measurable investigation.

Once again we welcome all to our CPD Accredited 3rd Global Congress on Antibiotics, Antimicrobials & Resistance Conferences to participate and to engage with the brilliant minds working in this field of researches.
