### INTRODUCTION

On behalf of Cardiology Meet 2021 Organizing Committee, we are pleased to invite researchers, cardiologists, doctors, Physicians, academicians, counsellors, educators, research scientists, self-help group facilitators, teachers, business delegates, young researchers, dieticians and industrialists to give the world a better solution to this problem. The conference will be a platform to globalize one research, to share scientific experiences, to acquire knowledge on new diagnostics methods and treatment procedures. The World Congress on Cardiology which is going to be held on October (21-22), 2021 as a Webinar. The conference highlights the theme of "Use heart to beat cardiovascular diseases".

The scientific program includes Keynote and Plenary talks, Video Presentations, Poster Presentations, and E-Posters. Furthermore, oral communications of (post) doctoral junior scientists will be considered. It is the goal of the organizers to make this meeting an event of scientific excellence, attractive to both industrial and academic scientists in Cardiology and its advancements.

We invite sponsors and exhibitor to showcase your products to our participants and make it reach the public through them. We request you to make use of this opportunity to make the world a better place to live in Conference Series Ltd is the longest running independent life science events company with a predominantly academic client base. Our multi-professional and multi-specialty approach creates a unique experience that cannot be found with a specialist society or commercially.

Conference Series Ltd organizes International Cardiology Meetings annually across Europe, Austria, Ireland, Germany, France, Liechtenstein, Lithuania, Finland, Luxembourg, Hungary, Italy, Norway, Poland, Denmark, Macedonia, Greece, Portugal, Romania, Czech Republic, Switzerland, United Kingdom, Belgium, Scotland, Latvia, Ukraine, Sweden, Denmark, Spain, Netherlands, Russia, Bulgaria, France, with solitary subject of quickening logical revelations.

### CONFERENCE TOPICS

- Heart failure
- Coronary artery disease
- High blood pressure

- Valve disease
- Cardiovascular disease
- Diabetes mellitus and stroke
- Abdominal obesity
- Vascular dementia
- Abnormal cholesterol and high triglycerides
- Haemorrhagic strokes (Bleeds)
- Open heart surgery
- Modern beating heart surgery
- Heart transplant
- Coronary artery bypass grafting
- Minimally invasive surgery
- Aortic stenosis
- Cardiac failure
- Congenital heart disease
- Kawasaki disease
- Rheumatic heart disease
- Acute Coronary Syndromes (ACS)
- Critical limb ischemia
- Angina
- Arrhythmias
- Acute thrombotic events
- Coronary artery disease
- Heart valve disease
- Peripheral vascular disease
- Angioplasty
- Congenital heart defect correction
- Cardiology applications and diagnostic methods
- Cardiac and vascular imaging
- Vascular grafts and artificial hearts
- Cardiac electrophysiology techniques
- Drug delivery systems
