

Cell Signaling: An Evolving Era

Maojun Yang*

School of Life Sciences, Tsinghua University, Beijing, China

I am glad to inform you that The Journal of Cell signaling (JCS) has completed successfully five years in the year of 2020 and is still growing. In the year of 2019, JCS had received a good number of articles from all over the world and only a few of them were subjected to peer review process and were accepted after checking for plagiarism. All issues of volume 4 were published online, well within the time. This journal works on all types of articles including research, review, case reports, commentaries, hypothesis, meeting reports and short reports. This journal embodies information that accomplishes the needs of students professors, researchers, medical practitioners, lab professionals and industry that is involved in Medical and clinical studies. This journal plays a significant role in digital advertising to help the authors or the concerned individuals attract new viewers quickly and efficiently. We try our level best to publish the papers keeping the high quality of the respective and maintaining the ethics.

We are focusing on exploring on major topics such as Apoptotic pathways, Mapk pathways, Cell ligands, Proliferation, TGF- β Cancer signalling array, protein kinases, lipid signaling pathways, cyclic nucleotide signaling processes, NO signalling and ion channels, Signal transduction. In 2020, two conferences are going to take place on the following topics "Advances in Biomass, Biofuels and Bioenergy" and "Future Trends on Material Science and Nanotechnology" in New York, US and London, UK respectively. According to the Google Analytics metrics report, we feel pleased to share that JCS is constantly capturing the attention of the viewers from worldwide. It has been encouraging the authors to visit our journal websites, submitting their manuscripts and enhancing their research study on various related topics. The Journal values the contribution towards each article that is being published and helps in shaping the finest profile sites for each author and the institution.

The Journal of Cell Signaling itself is peer reviewed journal. We provide vast advertising opportunities that include banners, sponsored mails, article alerts or newsletters, with best customizations for the authors. We are using Face book, Linked In, Twitter as social platform to showcase the work (be it product or service) and help in branding of the Journal. We highlight the important aspects of the article and keep updating our viewers about the articles from time to time. We also impart new research avenues that are concerned with the journal.

We are engaging our viewers with the abstracts and full texts of all the articles published by the Journal and are freely accessible to everyone immediately after publication.

Here, I would like to express my gratitude to Dr. Maojun Yang during the final editing of articles published and the support rendered by the editorial assistant, Keith C Howell in bringing out issues of JCS in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory, the editorial board and the office bearers of JCS for constant hard work, dedication, patience and cooperation for the successful running of the journal.
