

Conference Awards - The reward for work well done is the opportunity to do more

Hassan El-Dessouky

Senior Research Fellow, University of Sheffield, UK; E-mail: h.el-dessouky@amrc.co.uk

Physical Chemistry Conference intentions at sharing new concepts and advanced technologies between the Industrialists, Professionals and Students from the analysis areas of Chemistry, Computational Chemistry, Photochemistry, Theoretical Chemistry Electrochemistry. Chemical Engineering and Chemical Physics to share their recent innovations and applications in various fields, indulge in cooperating discussions and technical sessions at the event. Physical Chemistry is that the study of just how matter behaves on a Molecular and Atomic level and the way chemical reactions ensue. Depending upon their analyses, Physical Chemists may advance new theories, such as how complex structures are formed. Physical Chemists generally work closely with materials scientists to analysis and develop potential uses for brand new materials.

The [Award strives](#) in providing a strong professional development opportunity for early career academicians—meeting experts in the field, interacting with colleagues from other parts of the world, and creating networks and long-term relations.

Euro Physical chemistry conference would like to honour the eminent scientists who all are created outstanding contributions to advancing in the field of Physical Chemistry and it's the foremost prestigious award Our First category is Expert Level (Scientific Service Achievement Award).

Our second category of awards is The Research Contribution Award can be given to the experts who are having research knowledge for 10+ years in the field of Physical Chemistry.

Our third category of awards [Upcoming Researcher Award](#) recognizes and rewards emerging talent in the Physical Chemistry who are attributable with outstanding achievements and creating a big contribution to the advancement of Physical Chemistry

Our fourth category of awards is Women Scientist (The Women of Science Award) We are glad to encourage our women scientist's participants through research awards and aid with women scholars in career development and research guidance through our collaborations.

Our fifth category of awards is Outstanding speaker is given in recognition of an individual researcher/scientist who will present their projects, strategies, and schemes that are enforced to enhance long term excellence in Physical Chemistry.

Our sixth category of awards is Best Keynote Speaker award will be given to the expertise who showcase their research in the field of Polymer Science with in addresses time and interacting the audience with mind altering knowledge

Our seventh category of awards is [Best Poster Presentation](#) This award is presented to the people who present their research paper.

Our eighth category of awards is Outstanding Masters/Ph.D./Post Doctorate thesis work Presentation Outstanding thesis award is given to the scholars/researchers in recognition of their Masters/Ph.D./Post Doctorate thesis work presentation on their projects and thesis that have been implemented to improve long-term excellence in the field of Physical Chemistry.
