

Deliberate Modernistic advancements in Chromatography

Maria Perla Colombini

Professor of Analytical Chemistry, Dipartimento di Chimica e Chimica Industriale, via Moruzzi 13 Pisa, University of Pisa, E-mail: MARIA.PERLA.COLOMBINI@UNIPI.IT

Welcome to the “10th World Congress on Chromatography” during April 16-17, 2020 at Amsterdam, Netherlands, which includes prompt keynote presentations, oral talks, poster presentations and exhibitions with the theme “Modernistic advancements, innovative applications and prospective approaches of chromatography and analytical techniques”.

Chromatography 2020 event gathering people from all over the globe and covers different sessions, in which the exchanges incorporates the logical tracks: Applications of chromatography, high performance liquid chromatography, advances in gas chromatography, types of chromatography techniques, analytical chromatography, hyphenated techniques in chromatography, chromatography in pharmacy & pharmaceutical chromatography & partition methods in science, separation techniques, novel detachment strategies, various uses of chromatography and research identified with these fields.

Our OCM for Chromatography Conference: Professor Maria Perla Colombini- University of Pisa, Italy; Doctor Steven J Soldin-NIH Clinical Center, USA; Professor Ravi Bhushan-Indian Institute of Technology Roorkee, India; Shaorong Liu-University of Oklahoma, USA.

Awards Announcement:

Chromatography 2020 conference bestows the award levels to scientists/attendees for their work in developing Chromatography techniques. The award is designed to recognize those who have made excellent contributions in Chromatography.

Following awards are given to the attendees based on their eminency and research work:

Expert Level (Scientific Service Achievement Award):

The award will be presented to the expert researchers who have done exceptional work in the field of Chromatography. The award is considered the most distinguished award in the whole conference and it is termed as Scientific Service Achievement Award. The

researchers should have a minimum of **20 years** of research experience in the respective field. The anticipatory awardee should be passionate towards their work, willing to innovate and accept the aberrations happening in the research area with the introduction of recent trends.

Professional Level (The Research Contribution Award):

The award will be presented to professional researchers in the field of Chromatography with most relevant accomplishments. The award is termed as The Research Contribution Award. The researchers should have a minimum of **10 years** of experience in academic or professional research. Part-time research experience would be counted as a pro rata. Doctorate degree is not a must have for this award nominees. They should be hard working, diligent, focused and devoted to the specific field of interest.

Scholar Level (The Upcoming Researcher Award):

Chromatography 2020 offers upcoming researcher award for scientists, researchers and experts who having **5+ years** of research experience in the field of Chromatography and Separation techniques. Chromatography conferences has been providing best platform to enlarge your help to network, learn and to know about Chromatography work and expand your knowledge.

Women Scientist (The Women of Science Award):

The award will be presented to Women Scientists and Researchers in the field of Chromatography with a minimum of **10 years** of experience in relevant field. The award is termed as The Women of Science Award. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. We are delighted to encourage women scientists and researchers by providing a platform where they can present their work and passion towards their research.

Outstanding Speaker in Chromatography 2020:

This award is recognizing for individual who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Chromatography.

Best Keynote Speaker in Chromatography 2020:

This award is given to the best dedication for presenting keynote speech with their projects, strategies, and schemes that have been implemented to improve long-term excellence in chromatography, chemistry, HPLC and its related fields.

Best Poster Presentation in Chromatography 2020:

Best poster competition is organized at conference among the students to encourage them to take part and present their growing skills at international conferences and make them ready for the outside challenging world.

Outstanding Masters/PhD/Post doctorate Thesis Work Presentation in Chromatography 2020:

This award is to provide special recognition to the outstanding students who are doing their Masters/PhD/Post doctorate and have a thesis of their research work and are willing to give presentation on their projects to improve long-term excellence in the field of Chromatography and its applications.

Conference Series LLC Ltd. on Chromatography grasp explores Researchers, Academic Teachers, and Industrial Chemists who try to spread their examination experience to raise the inevitable research thoughts. This including International Conferences, Workshops, Symposia, Trade Shows, Exhibitions, and Science Congresses in all the major logical orders, including Clinical, Medical, Pharmaceutical, Chemistry, Engineering, Technology, Business Management, and Life Sciences crosswise over America, Europe, The Middle East, and Asia Pacific.
