

Disorder of sexual development

Amin Gohary

Burjeel Hospital, UAE

Abstract

In this presentation I will cover the role of gynecologists, neonatologists and pediatricians in the management of babies born with abnormal genitalia. The embryological development will be highlighted and the importance of early sex assignments will be discussed. We will share our experience between 1996 and 2019 with special references to cases with late presentation. The role of culture and social upbringing will be highlighted.

Biography:

Amin El-Gohary completed his MBChB in 1972 and his Diploma in General Surgery in 1975 at Cairo University, Egypt. He became a fellow of The Royal College of Surgeons in UK: Edinburgh in 1979, London in 1980, and Glasgow in 1997. Prof. Dr. Amin worked initially in Egypt, and then moved to Kuwait, then to UK, before coming to UAE in 1983. In the same year, he became the Chief and Head of the Department of Pediatric Surgery of a large government hospital. Additionally, he held post as a Medical Director for the same hospital starting 1989. He also held post as the Clinical Dean of Gulf Medical College, Ajman for 3 years. Prof. Dr. Amin is well known in Abu Dhabi for his extensive interest and involvement in scientific activities. He is the President of the Pediatric Surgical Association of UAE. He was awarded the Shield of the College of Pakistan in 1996 and the Medal of International Recognition in pediatric urology from the Russian Association of Andrology in 2010. He was given a Silver Medal from the Royal College of Surgeons – Ireland in 1978 and an Honorary Fellowship from the Royal College of Surgeons –Glasgow in 1997. In 2001, he became a Visiting Professor at Munster University, Germany.
