

## Drug Discovery Congress 2020 scheduled during 13-14, 2020, Helsinki, Finland

### Chris

It's glad to organize "7th International Conference on Drug Discovery and Toxicology" (Drug Discovery Congress 2020) in Helsinki, Finland on July 13-14, 2020 after a similar series of conferences in consecutive years at USA over the last several years which met with great achievement in Business Conferencing.

Working under the theme "Novel Strategies and Technologies for Drug Discovery and Medicinal Chemistry" this unique international conference will opportunity to reach the largest assemblage of participants from the Pharmaceutical community to gather and share their insights and convey recent developments in the field of generic drug research and current challenges and possibilities in modeling a new drug and breakthroughs in drug development, Generic drug safety, Novel trends and advanced strategies involving bioavailability bioequivalence research. This is a true forum where ideas and discussion is driven by the participants and interaction with peers and others leads to fruitful outcomes.

Drug Discovery Congress 2020 is a 2-day event offering the Exhibition, at venue to showcase the new and emerging technologies and have wider sessions involving Keynote presentation, Oral, YRF (student presentation), poster, e-poster presentations. World-renowned speakers and eminent delegates across the globe attending the conference, to share their valuable presentation on the most recent and advanced techniques, developments, and the newest updates are the prominent features of the conference.

### Why to attend?

Empower members to trade thoughts and extend connect with driving pharmaceutical researchers and experts. Medication pharma science 2018 unites top global researchers and experts showing bleeding edge disclosures, examine and new remedial medications. Empower exhibitors to have expanded perceivability through marking and systems administration at the gathering and increase direct access to a target fans of experts and chiefs.

The pharmaceutical business addresses a champion among the most unique and mentioning adventures on the planet. As human administrations continue creating and record for an imperative piece of the economy in the United States and all through the world, the criticalness of the pharmaceutical and social protection industry increases. The Pharma Industry are accountable for progression, age and promoting of medications. During the time sedate store has created as pham-

Ceuticals sciences through imaginative work structures.

It is related to thing and notwithstanding organizations. The various prescriptions found and made are its things and the human administrations it gives goes under the class of organizations.

The Drug Discovery Congress 2020 team was delighted to had:

- **Salvatore Cuzzocrea** from University of Messina Italy who gave a talk at our conference.
- **Fang Zheng** from University of Kentucky USA who gave a talk at our conference.
