

## Editorial – Announcement

### Editorial

Molecular Imaging is a sophisticated field of radio-pharmacology which enables visualization of the cellular function and the follow-up of the molecular process in living organisms without perturbing.

Journal of Molecular Imaging & Dynamics is a scientific open access journal that specifies and describes the development activities conducted in the field of Medical Science. The objective of the journal is to provide a medium for scientific communication to confer about the recent advancements in the very domain.

The journal aims to publish research, review, short communication, case studies related to imaging and dynamics of living organs. Thus, providing the scholars appropriate information and awareness through free access.

The Journal of Molecular Imaging & Dynamics is using the Editorial Tracking System for the peer review process. Authors may submit manuscripts and track their progress through the Editorial Tracking System.

We have completed Volume: 11 Issue: 04 for the Journal of Integrative Oncology. As we looking forward to the upcoming issue release for Volume: 11 Issue: 05. Kindly submit your manuscript for a new issue release.
