SCOPE OF ERGONOMICS

With a great excitement, I would like to introduce the Journal of Ergonomics (JER) a rapid peer reviewed journal which is a valuable source of information for scholars, researchers, professionals, and students, providing in-depth perspectives on intriguing contemporary topics of Ergonomics.

The motivation behind this article is to give data, high-quality and original research papers alongside relevant and insightful reviews. The Journal aims to flourish and to maintain the standards in Ergonomics research and practices, providing an excellent platform and opportunity to present evidence based research, reviews, case studies and analytical assessment of research that probably is much in deed for students, professors, aspiring researchers and health care professionals to enhance the patient care.

It is an incredible excursion throughout the long term beginning from the dispatch of the "Journal of Ergonomics" in the route in 2011. The reaction it, has from all our famous authors and aspiring researchers year by year is really overpowering and consistently inspire us to give better administrations as far as simplicity of distributing with us, getting quality explores and simple access of

them to the readers. 2019 is the same to it as we have effectively delivered six issues with some high caliber articles from very presumed writers over the globe. The quantity of downloads these articles have is empowering for us which in a manner endeavors us to accomplish all the more difficult work in the coming years what's more, subsequently we are anticipating 2020 and trusting it to be an even better year for us.

Journal gets articles all regions identified with Biomechanics, Human Kinematics, Industrial Hygiene, Transport Ergonomics, Sports Physiology, Kinesiology, Awkward Posture, Agricultural Ergonomics, Psychosocial Factors, Carpal Tunnel Syndrome, Human Computer Interactions, Exercise Physiology, Sports Technology, Applied Ergonomics, Dental Ergonomics, Driver Safety, Human Factors, Industrial Ergonomics, Musculoskeletal Disorders, Engineering controls, Occupational Health and Safety, Sound Ergonomics, User Experience Design, Work related issues.

On this happy note, for the benefit of the Journal, I would like to offer my thanks to all the editors, reviewers, writers and readers for keeping their confidence on us and partner with us throughout the years to make this journal an effective open access journal till now and I am seeking after their nonstop help in the coming a long time also.
