Giulio Tarro

Foundation T. & L de Beaumont Bonelli for cancer research, Italy

On behalf of Pulsus, [Arthroplasty 2020](#) welcomes all the eminent researchers and scholars around the globe to be the member of “[13th International Conference on Arthroplasty](#)” scheduled on February 21-22, 2020 at Paris, France. The objective of the conference is to provide a unique opportunity to meet up with peers from both industry and academia to establish a scientific network between them and to discuss the scientific developments and future of the arthroplasty in terms of collaboration, structures and organizational development.

Our aim is to deliver a remarkable scientific program which covers the entire range of research and innovations and share the cross-cultural experiences of various treatment procedures. It provides a premier interdisciplinary platform to bring you the most up-to-date advanced therapeutics and evidenced based guidelines to incorporate into your practice. Explore the latest advances in the treatment and management of [Orthopedics](#). This is an opportunity to catch up on new developments in this complex area of medicine and strengthening ties and fostering collaboration within [orthopedic research community](#).

The participation categories for Arthroplasty 2020:

- Keynote Speech
- Oral Presentation
- Poster Presentation
- Video Presentation
- Young Scientist Research Forum
- E-poster Presentation

Awards are essential for young scientists to excel in their research careers. Arthroplasty 2020 offers awards for scientists at all stages of their careers that help to create an environment where researchers can achieve their best work. Arthroplasty 2020 is excited to introduce awards, to celebrate the high-quality papers submitted this year. The following awards will be presented for the outstanding contribution in the field of [orthopedic surgery](#).

- Best Keynote Award
- Best Poster Award
- Young Scientist Research Award and Research Excellence Award

We support and encourage the sharing of knowledge across the orthopedic research community.

Best Keynote Award

This award acknowledges speakers who present their projects, strategies, and schemes that have been implemented to improve long-term excellence in the field of Arthroplasty. The committee will select a number of candidates for the award among the accepted proposals. The winner will be selected at the conference, taking into consideration both the proposal and the presentation. For the best keynote award, the person should be eminent or highly affiliated like Dean, Professor, HOD, Chairpersons, CEO, MD etc. Selection of the [Best Keynote Speaker](#) will be made on the basis of the participant contribution and years of experience in the respective research field. Each submission will be accepted based on the quality of abstract and conference theme. All abstract submissions will go through a quality checking. Final approved abstract will consider for Keynote award.

Best Poster Award:

Unique opportunity to combine visual and oral explanations of your projects in the form of poster presentation. These awards are given to the best posters presented at the conference. It rewards a combination of excellent research, innovation, and presentation.

The selection of the winner will be based on:

- Posters will be evaluated based on the following three parameters; those are Presentation Style, Research Quality and Layout/Design.
- Presentation clarity of poster and oral explanation.
- Poster Judges overall responses to the questions and the completeness of work

Young scientist Research Award:

The Young Researchers' Award aims to inspire early stage researchers to incorporate technology developments in the field of Orthopedic surgery. This awards program is intended to support and stimulate research by graduate, undergraduate students, PhD graduate, Resident in the field of orthopedics. Each [young scientist](#) is required to make a brief presentation about his/her research work before the Organizing committee at the event. The awards are given for outstanding contributions made by the Young scientists on work done.

Scientific societies of national/international standing, university faculties, postgraduate departments or research institutions may also make nominations of eligible candidates
