

Editorial- Fisheries and Aquaculture Journal (2150-3508)

Karunasree Pandiri

LONGDOM Fisheries and Aquaculture Journal has been started in the year 2010 and it released its first volume in the same year. Till now, the journal has released 10 volumes by the end of 2019 and is successfully running its 11th Volume.

“Fisheries and Aquaculture Journal” is a leading open access research Journal which showcases pivotal research in the field by publishing the latest research on fisheries and aquaculture. Fisheries and Aquaculture are at the crux of development in many developing countries having a sea coast; therefore, studies pertaining to Coastal Development, Marine Biology, and Oceanography are also covered under the scope of the Journal. “Fisheries and Aquaculture Journal” holds a special position in the ecosystem of scholarly communication by relaying on expert knowledge synthesized from the seminal advancements in the field of Fisheries and Aquaculture.

Classification of the Journal

Fisheries
Aquaculture
Aquaponics
Benefits of Aquaculture
Best Aquaculture Practices
Captive Fishing
Fish Feed Technologies
Fish Production
Fishing Technology
Global Aquaculture Alliance
Home Aquaculture
Marine Food
Recirculating Aquaculture Systems
Salmon Aquaculture
Shrimp Aquaculture
Sustainable Aquaculture
Tropical Aquaculture and Fisheries

The classification extends to the above and its related topics too.

During the year 2019, the Journal has released nearly 13 articles. During May, Longdom Group has acquired this journal from Omics group and from then on, all rights has been taken by the Longdom Group only.

Some of the articles released in 2019 are as follows:

1. Stomach Content Analysis and Concentrations of Chemical Pollutants in the Clymene Dolphin (*Stenella Clymene*, Gray 1846) from the Coastal Waters of Ghana.
2. The Effects of Different Stunning Techniques on Meat Quality of Brown Trout (*Salmo Trutta Fario*).
3. Liver Enzyme Activity of *Tilapia zillii* and *Mugil capito* Collected Seasonally from Qarun Lake, Egypt.
4. Growth Performance of the African Catfish, *Clarias gariepinus* (Burchell), Fed Varying Inclusion Levels of Castor Seed (*Ricinus communis L.*).
5. Chemical and Microbial Quality Assessments of Some Economic Important Artisanal Fresh Water Fish Species (*Tilapia zilli*, *Clarias gariepinus*, *Chrysichthys nigrodigitatus* and *S. melanotheron*) in Selected Coastal Markets of Lagos State, Nigeria).
6. Optimum Harvest Time of the Nile Tilapia (*Oreochromis niloticus*) in Honduras: A Two Step OLS Procedure to

Obtain the Growth Function.

7. The Salmon Sea Fish Farming Industry in Iceland: A Review.

In the same way, the Journal expects to cover all the above classification topics for the year 2020 along with the present research in this field along with the current situation prevailing in globally i.e., COVID19.

Social media/digital marketing

The journal always was in contact with the scientific group of the world through its mails, social media networks and its digital platforms. Some of the best ways to be in contact with the audiences are:

1. Twitter postings: Regularly posting the articles, trends, updates of the journal. They can be visible at: @fisheriesaqua.
2. Posting Google Analytics data in the website.
3. Using LinkedIn and Facebook for regular updates.
4. Regularly being in contact not only through mails but also through Whats App.

The complete details about the journal can be seen at: <https://www.longdom.org/fisheries-and-aquaculture-journal.html>

For contacting us, mail us or Whats App us.

Lastly, Fisheries and Aquaculture Journal is nothing without the continuous support of the Editorial Board Members especially our Editor-in-Chief Chen Jiazhang. The Editorial Board members are the back bone of the journal. Along with them, authors and reviewers play a very significant role in building this journal.

So, as an Editorial Co-ordinator I invite all the extended dignitaries in this field to submit their articles for bringing this research/expertise to the global scientific community.

Editor-in-Chief:

Chen Jiazhang
Nanjing Agricultural University, China

Editors:

Eleni Golomazou
University of Thessaly, Greece

Brett Glencross
CSIRO Marine and Atmospheric Research,
Australia

Reviewers:

James Tidwell
Chair of the Division of Aquaculture; Principal Investigator, Freshwater Shrimp and Largemouth Bass, Kentucky State University, USA
