

About the Journal

Journal of Glycomics & Lipidomics (JGL) is an academic journal that encompasses a wide range of current research under the scope of the journal which aims to offer a promising platform for the researchers and scientists to make their valuable contributions towards the journal.

Journal of Glycomics & Lipidomics is a Scholarly Open Access Journal that aims to publish the relevant and reliable source of information in the form of original articles, review articles, case reports, short communications, etc. in the journal is freely available without any restrictions or any other subscriptions for researchers all over the world.

The journal is using the Editorial Manager System for online manuscript submission, review and tracking. Editorial board members of the Journal of Glycomics & Lipidomics or outside experts review manuscripts; at least two independent reviewer's approval followed by the editor approval is required for the acceptance of any citable manuscript.

Longdom Publishing through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. Longdom Publishing hosts over 700 leading-edge peer reviewed Open Access Journals and organizes over 1000 International Conferences annually all over the world. Longdom Publishing journals have over 10 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 50000 eminent personalities that ensure a rapid, quality and quick review process. Longdom Publishing signed an agreement with more than 1000 International Societies to make healthcare information Open Access. Longdom Publishing Conferences make the perfect platform for global networking as it brings together renowned speakers and scientists across the globe to a most exciting and memorable scientific event filled with much enlightening interactive sessions, world class exhibitions and poster presentations.

This journal creates a platform for the authors to make their contribution towards the journal. Journal of Biomedical Sciences is a peer reviewed journal that includes a wide range of fields but not limited to Cognitive and neurosciences, Biochemical engineering, Gas transport and metabolism, Cardiac assist devices, Vascular autoregulation, Protein science, Structural biology, Biomedical ultrasound, Neuroengineering, Heart mechanics, Biomedical science, Genetics. Carbohydrate Lipids, Cholesterol, Functional Glycomics, Glycan Analysis, Glycan Micro Arrays, Glycan Profiling, Glycans, Lipid Carbohydrates, Lipid Chemistry, Lipid Diet, Lipid Functions, Lipid Hormones. Lipid Peroxidation. Lipid Polymers, Lipid Profiling, Lipid Steroids, Lipidomic Analysis, Lipoproteins, Mass Spectrometry and Lipidomics, Mono Unsaturated Fats, Polysaccharides, Transport proteins, Tri Glycerides

Why Special Issue

This special issue has been introduced to recognize those researchers who are with us from the starting of the Conference and kept their believe with us regarding the quality of the conference and the publication. Their continuous support make the Conference as well as the supporting journal to the conference successful and recognized by the international experts.

Here in honor to those supporters, those speakers, those submitters, those researchers we are releasing the special issue with the abstracts accepted for the conference, full length articles submitted to the conference and with the short communication submitted to the conference.
