Journal of Defense Management is a peer-reviewed online journal which intent to enhance defense management by providing an extensive array of defense topics including policy, strategy, procurement, logistics, human resources, training, the army, navy and air force, military vehicles, the defense estate and more.

Defense management is significant as it endeavors towards viability and productivity of the defense powers, guaranteeing they satisfy their obligation of giving open security and defense against outer dangers in the most ideal manner. By guaranteeing assets are spent dependably and deliberately, in a way that is predictable with the more extensive national security approach, defense management contributes great administration. This infers solid adherence to straightforwardness and responsibility at all hierarchical levels and the presence of a viable oversight framework.

Defense management considered inside a more extensive extent of national defense and security approach is a procedure that includes in the principal case state specialists that are liable for the improvement of that arrangement and meaning of defense and security financial plan. The job of parliaments in the

oversight of this arranging procedure is of uncommon significance. The second period of defense management comparative with the real execution of arrangements and management of assets (sorting out, staffing, coordinating and driving) is taken care of by military and regular citizen faculty of the defense part. The last period of the defense management cycle, observing and controlling, includes a wide scope of on-screen characters, for example, parliamentarians, ombuds establishments, evaluators, assessors, common society and the media. Their goal is to screen the procedure so as to guarantee consistence with national and universal principles of good administration, stop degenerate conduct and give input to progress.

Association with Longdom group has increased Readership Metrics (By Google Analytics) of Journal of Defense Management which can be accessed at Google Analytics Metrics for the Journal of Defense Management.

We would like to take this opportunity to thank you for the exertion and skill that you add to reviewing, without which it is difficult to keep up the high standards of peer-reviewed journals.
