EDITORIAL NOTE

Internal Medicine: Open Access, Longdom publication, is an independent academic and scholarly science publisher keen in exploring research in all the major scientific fields on open access platform. Longdom focuses on publishing research related to basic as well as applied research in all the major Medical, Pharmaceuticals and Life sciences. We encourage the scholarly scientific community to share their recent research outcome to aid information and knowledge dissemination globally. It is an open access and peer reviewed journal by eminent Editorial Board and the manuscripts are peer-reviewed by potential reviewers according to their research interest.

For the last 9 years, published papers have been under the strong and able leadership of our Editor-in-Chief's. Especially, we are thankful to for his continuous support and dedication towards the journal will not lost. We the publication office of Internal Medicine: Open Access including me, we all are very honoured and grateful for his selfless devotion towards the journal.

We provide a rapid turn-around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and reference purposes. Scope of the Journal: The scope includes the requirements of wide spectrum of researchers who are clinical practitioners, diagnostic professionals, medical practitioners, pharmacists, chemists and druggists and the institutions engaged in academic and research practices.

The journal covers a whole lot of topics in this field related to clinical investigations, clinical pathology, clinical case studies, anatomical pathology, epidemiology, leukocyte-extravasation, proteoglycans, heamostasis, bioanalytical assays, bioavailable, biomarkers, cognitive debriefing, clinical ethics, drug development, pharmacogenetics, pharmacokinetics, Ambulatory peritoneal Dialysis, Chronic kidney disease, Dysuria, Hemodiafiltration,etc.,

APPLIED STRATEGIES IN 2019

We have applied many strategies in 2019, i.e.

- Using contacting through Mobile (Whatsapp) phones
- Sent Call for papers for the eminent in the field
- Approaching the Editors suggested eminent
- Approaching potential reviewers for the Call for papers

- Maintaining the frequency of articles.

I wish to provide some perspective from the cycling research community of Archives of Internal Medicine: Open Access with regard to a recent Editorial note of our Journal. I solely believe that the quality of the journal is based on the Eminence presence in the Editorial Board as well as Reviewer Board (potential reviewers) who strive to make the papers significantly productive and helpful for the scientific community.
