

Editorial Note on International Journal of Biomedical Data Mining

Candice White *

Dear Readers

I am pleased to mention that during the year 2019, all issues of volume 8 were published online well within the time and the print issue were also brought out and dispatched within 28 to 30 days publishing the issue online. The publication process of our journal starts on the first day of submission. On the first day after the submission of paper we upload it to our PreQc portal for the pre quality assessment if the paper is accepted in the PreQc means no plagiarism report is found we assign an editor from our editorial board to assign a reviewer to review the paper. After 24 to 48 hrs we get the reviewer comments and send the file to the editor for the approval. After these things we go for the article processing (Authorproof etc.) and after 20 to 21 days we send the galleyproof to the author for the further correction from the author side and raise the invoice and send it to the author. These whole things took max to max 28 days and finally we make the article online on 28th day or 30th day.

International Journal of Biomedical Data Mining is an interdisciplinary biomedical system and technology journal that deals with various aspects of the field such as medical science, innovative emerging technologies, with an emphasis on biotechnology, bioengineering with their artificial manipulation and systems. This is the best open access journals that publish the most comprehensive, relevant and reliable information based on the current research and development in the field in the form of original articles, review articles, case reports, short communications, etc. in the journal which is freely available without any restrictions or any other subscriptions for researchers all over the world. The Journal was founded on two key tenets: To publish the most exciting researches with respect to all aspects of Biomedical Sciences. Secondly, to provide a rapid turn-around time possible for reviewing and publishing and to disseminate the articles freely for research, teaching and reference purposes. Basically the journal brings articles in all areas related to anatomy and physiology, cell biology, biochemistry, microbiology, genetics and molecular biology, immunology, mathematics and statistics, and bioinformatics on half-yearly basis. It is basically aimed at the Clinical Practitioners, Medical/ health practitioners, Students, Professionals and Researchers and Professional bodies and Institutions.

The Journal has a well affiliated and recognised Editorial team that are very collaborative. They are basically from JAPAN, ITALY, USA, CANADA, SPAIN, PORTUGAL, AUSTRALIA, CHINA, EGYPT, TURKEY, and INDIA and all are well established scientists and professors.

The journal has well indexing of EBSCO A-Z, GOOGLE SCHOLAR, INDEX COPERNICUS, ELECTRONIC JOURNALS LIBRARY, REFSEEK, HAMDARD UNIVERSITY, WORLD CAT, SWB ONLINE CATALOG, VIRTUAL LIBRARY OF BIOLOGY. Globally also the journal has a good impact in online.

During the calendar year 2018 and 2019 JBDM received total no of 20 papers out of which 16 are accepted and 4 were rejected in the preliminary screening due to plagiarism or being out of the format. During the year 2018 and 2019 total no of 16 articles were subjected to

the peer review process and out of these 10 were accepted. And total no of 6 articles were published on the journal out of which 50% foreign authors.

I would like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JBDM and look forward to their unrelenting support to bring out the volume 9 of JBDM in scheduled time.
