INTRODUCTION

Journal of Glycobiology is an international prominent journal which published articles globally in the prime field of functions of different saccharides, glycans, oligosaccharides or the different proteins which interact with the glycans to the forefront of conceptual developments in the discipline.

Journal of Glycobiology offers easy to submit and review systems. We are using Editor Tracking system for this purpose. Where Author / Reviewer/ Editor can monitor every step of the article processing through this system, from submission to publication. This convenient online manuscript submission and processing system is widely praised by authors for ease of use.

In order to serve the purpose we do classify the research work in to the following types: Research, Review, Short Review, Case Report, Case Studies, Case Series, Commentaries, Short Commentaries, Thesis etc.,

Journal of Glycobiology is a Open Access Scientific Journal that offers an interesting publishing platform globally and aims to keep scientists, researchers, and students informed and updated on the ongoing research in the relevant area. Outstanding quality articles are welcome to maintain the highest standard of the journal and to achieve high impact factor.

We would look forward to expand and welcomes a wide range of members to the Editorial Board who are expert in their respective discipline and collectively cover the scope of the Journal. We trust this new editorial structure will ensure their provision in future. The scope includes study of structure, biosynthesis, biology and functions of different saccharides,

glycans, oligosaccharides or the different proteins which interact with the glycans.

We would like to associate with Scientists/ Researchers / Healthcare companies in publishing each and every advancements going on in the field of quality improvement and improve our readership to larger extent than that of 2019. During the year 2019, all the issues were published online within the time and also included editorial conferences in the issues. Issue released on a bimonthly basis have more than 422+ Page views from different diversions such as India, United states, France and Australia, and observed that the visitors have accessed the journal pages for reading and deriving information for their use.

JGB is an open access publication networks available in the world that handles social network sites such as LinkedIn, Instagram, Facebook, Live Chat, Twitter to promote the articles published by our journals in order to introduce new trending information about the recent research works and freely accessed by means of Open Access Policy.

Finally I would like to express the gratitude to all the authors, reviewers, the publisher and the editorial board of the journal for their support. Especially I would also like to appreciate the reviewers and the editors warm work earnestly, who are serving us continuously since day one and brought an invaluable depth of knowledge, experience and commitment to the journal during this time. Their work has not only enhanced the reputation of the journal, but consolidated its presence in emerging research areas.
