

Emerging the Science in Cardiology

Burton M Altura*

Suny Downstate Medical Center, Pharmacology & Medicine SUNY Downstate Medical Center, USA

ABSTRACT

Cardiology is a branch of medicine deals with the disorders of the heart as well as some parts of the circulatory system. The field includes medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease and electrophysiology. Physicians who specialize in this field of medicine are called cardiologists, a specialty of internal medicine. Pediatric cardiologists are pediatricians who specialize in cardiology. Physicians who specialize in cardiac surgery are called cardiothoracic surgeons or cardiac surgeons, a specialty of general surgery.

Keywords: Cardiology; Coronary artery disease, Heart failure, Valvular heart disease

EDITORIAL NOTE

Cardiology is a branch of medicine deals with the disorders of the heart as well as some parts of the circulatory system. The field includes medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease and electrophysiology. Physicians who specialize in this field of medicine are called cardiologists, a specialty of internal medicine. Pediatric cardiologists are pediatricians who specialize in cardiology. Physicians who specialize in cardiac surgery are called cardiothoracic surgeons or cardiac surgeons, a specialty of general surgery.

On behalf of the Board of the Journal of Clinical and Experimental Cardiology and my co-editors, I am glad to present the Volume 11, Issue 9 of the journal. The journal established in the year 2010 has now published more than 10 volumes; more than 8 issues from the year 2010. Average download per article is increasing and on an average there are 50 downloads per paper. All these are promising signs. We could reach this stage through the constant support of Board Members and intellectual generosity of the readers and contributors (authors and reviewers).

We also feel that a need exists for additional facilities for the publication of the results in cardiology and cardiology research, especially in their relation to medical and clinical sciences.

Therefore, it has been resolved that papers on these topics will be welcome in our Journal; and in order to accentuate the importance we attribute to the cultivation of cardiology. Journal of Clinical and Experimental Cardiology is a peer-reviewed journal in which helps in uplifting the different case reports, research studies in the

field of cardiology. Our journal contributes various case reports, case studies, research work throughout the global wise. Our journal is the perfect platform to showcase the different types of research papers all over the world as we encourage every doctor, eminent authors, students, graduates etc., from any part of the world.

We have also planned to release special issue on "Proceedings of 2nd Middle East Heart Congress" you can have a glance at the webpage for more information, in the past few years also we have coined various special issue titled:- cardiac stem cells, cardiac arrest and sudden death, advances in cardiac surgery and therapeutics, Cardiac biomarkers, coronary heart disease, valvular heart disease, cardiopulmonary disorder, Congenital Heart Disease-Recent Discoveries and Innovations, Myocardial Infarction & Protection-II, Heart Transplantation, Heart failure, Clinical cardiology, Vascular Disease in Heart Transplantation, Arteriosclerotic Vascular Disease, Myocardial Infarction and Protection, Atherosclerosis and Cardiovascular Risk Factors, Peripheral Vascular Disease.

All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Google Scholar, Sherpa Romeo, and Academic Journals, Database, Open J Gate, Genamics Journal Seek, Academic Keys, Journal TOCs, Cite Factor, Scimago, Ulrich's Periodicals Directory, Electronic Journals Library, Ref Seek, Hamdard University, EBSCO A-Z, OCLC-World Cat, SWB online catalog, Virtual Library of Biology (vifabio), Publons, MIAR, University Grants Commission, Geneva Foundation for Medical Education and Research.

As always, we would like to thank our steadfast faculty advisors. Their guidance and support make our journal possible, and we are deeply indebted to them for the time and effort that they put into

our journal. On a final note, the outgoing board would like to send its best wishes to next year's new board members. My hail to the freshers of the Editorial Board of the journal. The editorial team follows strict guidelines to avoid any potential bias and conflict of

interest while reviewing manuscripts. We hope that the incoming board will strive to honor the efforts of the past 7 years and pass down the work ethic and appreciation of academic scholarship to future JCEC members.
