

Endocrine Oncology: Special Issue

Ilene Fennoy*

Department of Pediatrics, Division of Pediatric Diabetes, Endocrinology and Metabolism, Columbia University, New York, New York, USA

About Special Issue

Endocrinology & Metabolic Syndrome is an Open Access journal with rapid peer-reviewed publishes in the field like biosynthesis, storage, chemistry, and physiological function of hormones and the cells of endocrine glands and tissues that secrete them.

Endocrinology is happy to announce its Special Issue on “**Endocrine Oncology**”. Endocrinology is offering special discounts on APC (Article Processing Charges) and immediate publication (within 21 days from initial date of submission). Our Journal is planning to release issue by end of the Year i.e., Dec 30th, 2020.

Endocrine oncology is a medical specialty that deals with the production of hormones and tumors. There are several kinds of endocrine tumors, and are listed below

- Thyroid Cancer

We are proud and glad to announce that our journal is ready to release volume 9 Issue 7 in this year 2020 and the last issue of this year.

A flawless support from authors, editors and reviewers boosted our journal. We are thankful to each and every member who cooperated with us in this successful journey.

We would like to invite guest editors and authors to contribute towards the special issue and make it successful with your knowledge. An open invitation to all the editors and authors for our special issue

ENDOCRINE ONCOLOGY.
