

## Experts Gathering At Environmental Congress

Ajah Uzoigwe James

President of Earth Environment And Climate Care Ambassadors (EECCA), Nigeria, E-mail: [citycleanersinternational@gmail.com](mailto:citycleanersinternational@gmail.com)

The “[World Congress on Environmental Toxicology and Health](#)” hosted by conference series with the theme, “**Multidisciplinary Approaches Towards Environmental and Health Safety**” was successfully executed during, **2018 in Sydney, Australia**. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Nanomaterial carcinogenicity: Role of cancer stem cells and tumor microenvironment Yon Rojanasakul, West Virginia University, USA
- Risk assessment and bioavailability of mercury from dust in gold mining areas in Johannesburg, South Africa Ewa Cukrowska, University of the Witwatersrand, South Africa Professional Level (The Research Contribution Award)

Conference series is organizing “[3rd World Congress on Environmental Toxicology and Health](#)” which is going to be held on **March 30-31, 2020 Osaka, Japan**. The conference is going to cover the entire field related to Environmental Toxicology and Health, latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Environment toxicology congress 2020 are as follows Pollution, Regulatory Toxicology, Economic Toxicology, Climate Change, Medical Toxicology, Occupational Toxicology, Environmental Toxicology and Chemistry, Epidemiology and Biostatistics, Environmental Health and Safety, Waste

Recycling and Management, Agricultural Toxicology, Health Economics and Public Policies, Global Warming, Green Chemistry, Bioaccumulation & Ecology Impacts, Carcinogenesis and Mutagenesis, Environmental Compliance.
