On behalf of the Board of the Journal of Down Syndrome & Chromosome Abnormalities (JDSCA) and my co-editors, I am glad to present the Volume 6, Issue 1 of the journal. Maintaining broad scope, incorporating all areas of chromosome abnormalities, risk of Down syndrome, genetic challenges of Down syndrome, Effects of Down syndrome, Diagnosis of Down syndrome, Study of chromosome 21, diagnostic testing, screening and chromosomal abnormalities like Wolf-Hirschhorn syndrome, Jacobsen Syndrome, Angelman syndrome, Turner syndrome, 22q11.2 deletion syndrome, Triple X Syndrome, Williams Syndrome, Cri du Chat Syndrome, Trisomy 13/Patau syndrome, Trisomy 18/Edwards syndrome, Cat eye syndrome, Fragile X syndrome

In 2019 Journal of Down Syndrome & Chromosome Abnormalities has released two Issues. In 2019, 10 new editorial board members have been added as Editor-In-Chief and Editors. Journal has published 65% of high-income article in order to improve the quality and citations.

In 2020 Journal will be focusing more on Down Syndrome & Chromosome Abnormalities. These two topics are current trending topics in all over the world. In upcoming issue journal will be focusing in these two topics. Publishing same related topic can improve the quality of journal. In upcoming issues journal will focus on Editors papers. Publishing editors' papers can bring more reputation to the journal and editors' references are more valuable to journal.

The Journal of Down syndrome and Chromosome Abnormalities deals with types of chromosome abnormalities, risk of Down syndrome, genetic challenges of Down syndrome, Effects of Down syndrome, Diagnosis of Down syndrome, Study of chromosome 21, diagnostic testing, screening and chromosomal abnormalities like Wolf-Hirschhorn syndrome, Jacobsen Syndrome, Angelman syndrome, Turner syndrome, 22q11.2 deletion syndrome, Triple X Syndrome, Williams Syndrome, Cri du Chat Syndrome, Trisomy 13/Patau syndrome, Trisomy 18/Edwards syndrome, Cat eye syndrome, Fragile X syndrome etc..

Journal of Down syndrome and Chromosome Abnormalities is posting updates frequently in social media like twitter and Facebook. In 2020, JDSCA will be posting high cited articles links in social media to bring the attention from authors. Journal will be improving its communications in social media like twitter, Facebook, LinkedIn, e.t.c., JDSCA will be displaying the promotions from universities and other collaborations to bring more reputation and noticeability to the people. In order to get these reputations, we need to follow below procedure:

- 1) Focusing on People: First we need to get who is our frequent visiting audience.
- 2) Choosing correct platform to post sometimes we cannot post everything in some social media platforms like in linkedin we will be having limited access to post but in linkedin we can get good scholar researchers. So, we need to select few social media platforms based on post requirement.
- 3) Improving community: Once we understand our audience and social media platform where to use, now we need to focus on building community.
- 4) Mixture of Content: Before posting in social media we need to mix few other topics in post to reach maximum people and bring more attention in community. So, creating good content before posting is needed. We need to make sure the post is reachable to journal and audience.
- 5) Expert Guidance: we need to have expert guidance from authors and editors. We should also post about our editors and authors to boost up their confidence and it brings more positivity towards our journal.

If we can follow these few procedures to use social media, it would be grateful to journal.

We need to thank few editors and reviewers for their continues efforts towards JDSCA journal. Editors and Reviewers are analyzing the quality of papers and helps to take the decision either to accept or reject.

These are the few Editors and Reviewers we need to thank specially because of their timely review and decision taking.
