EDITORIAL NOTE

I am pleased to mention that during the year 2020, all issues of volume 9 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Our greatest strength lies in the gold open access mode of publishing enabling the content accessible to the remotest corners of the world absolutely free of charge. The constituent journals, mentored by an internationally acclaimed editorial team regularly publish peer-reviewed content in all formats of scientific reporting covering major specializations of clinical and medical science. JSDT sets the standards for the clinical practices and clinical trials, by publishing the latest innovations as research articles, review articles, case studies, short communication, commentaries and the letters to the editor.

Reviewers can access, read and download full length manuscript and submit their opinions. Editors can oversee and operate the

entire cycle of screening, revisions, editing of the submissions. Publishers can monitor the submissions and channelize production operations such as copy editing, style sheet implementation and author proof generation.

The submissions to the journal are subjected to peer-review process by the editorial board members or external subject experts. The complete editorial processing of the manuscript is done through the integrated online editorial manuscript submission and review system for greater transparency and faster article throughout.

I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JSDT, the office bearers and staff for their support in bringing out yet another volume of JSDT and look forward to their unrelenting support to bring out the Volume 10 of JSDT in scheduled time.
