

Neonatology and Perinatology

Krzysztof Piotrowski

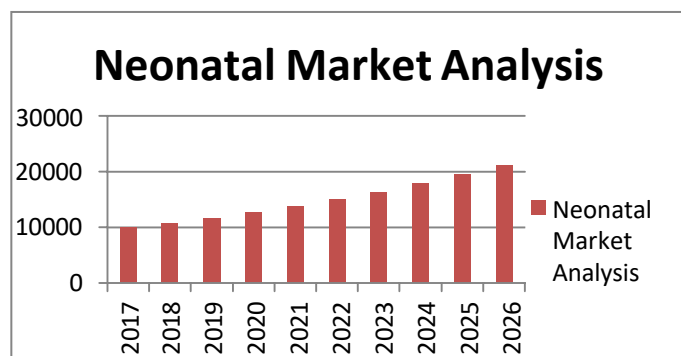

Department of Pathology, Pomeranian Medical University, Szczecin, Poland

Neonatology

The global neonatal market essentially comprises of the healthcare services provided across various areas of healthcare industry. Children are often prone to illness and diseases and catch infections easily. Hence the pediatric market in terms of healthcare is a flourishing one, no matter what. Changes in lifestyle and unhealthy habits prevailing in the family largely contribute to the growth of this market.

The global market for pediatric interventional cardiology in 2014 is largely dominated by the Americas, especially in the U.S due to the increasing instances of cardiac diseases among the children. APAC region is poised to exhibit highest growth rate during the forecast period due to the flooding investments in pediatrics by major healthcare players in this region, especially from China and India. The improved healthcare services and governmental healthcare reforms and increased awareness among people drive the market for pediatric interventional cardiology in the APAC region.

The global Neonatal market is valued at 119700 million US\$ in 2017 and will reach 159600 million US\$ by the end of 2025, growing at a CAGR of 3.7% during 2018-2025.

Importance & Scope: Neonatology 2020 will focus on the latest and exciting innovations in all areas of Pediatric and Neonatology research which offers a unique opportunity for investigators across the globe to meet, network, and perceive new scientific innovations. This year's Pediatric conference highlights the theme, "To prosper the Child's Health with new advancements in research and technology" which reflects the ground-breaking progress in Pediatric and Neonatology research. The two days conference includes Pediatric and neonatal care workshops, symposiums and special keynote

sessions conducted by eminent and renowned speakers who excel in the field of Pediatrics and neonatology which include the topics Neonatology, Pediatric Neurology, Pediatric emergency medicine, Pediatric oncology, neonatal nutrition, birth complications, neonatal infections, Pediatric and neonatal surgery. This global Pediatric conference also encourages the active participation of young students, upcoming researchers and budding scientists as we are hosting Neonatology Poster Award Competition and Young research Forum at the conference venue.

Target Audience:

- Pediatricians
- Pediatric Nutritionists
- Pediatric surgeons
- General Physicians
- Neonatologists
- Pediatric Clinicians
- Pediatric Associates
- Pharmacists
- Pediatric Nurses
- Academicians
- Pediatric Residents
- Specialists in adolescent medicine

Related Associations and Societies:

- Academic Pediatric Association
- Academy of Medical-Surgical Nurses
- Academy of Neonatal Nursing
- Aimee's Army Childhood Cancer Foundation
- Alex's Lemonade Stand
- Alliance for Childhood Cancer
- Alliance of Cardiovascular Professionals
- American Academy of Nursing
- American Academy of Pediatric Dentistry

- American Academy of Pediatrics
- American academy of Pediatrics Breastfeeding
- American Academy of Pediatrics Georgia
- American Gastroenterological Association
- Association of Pediatric Hematology/Oncology Nurses
